Advantages:

1. **Loading Capacity:** A 40HQ container can hold 18 sets of assembly containers.
2. **Easy Installation:** Each container can be installed by 2 people in one day.
3. **Cost-Effective:** Low price, high cost-performance ratio.
4. **High-Quality Components:** Equipped with aluminum alloy windows and fireproof doors, ensuring safety and reliability.
5. **Custom Sizes:** Sizes can be customized according to specific requirements.
6. **Drainage Design:** Features free drainage and external drainage systems to prevent water accumulation.

Applications

Saudi Container Dormitory

Residential housing in the Philippines

Residential projects in Malaysia

Philippines Two Layer Container Project

Housing for German engineers in Tanzania

Retirement homes in France

Japanese pro assemble container

Standard pro assemble container

Interior decoration of containers

Advantages:

1. **Loading Capacity:** A 40HQ container can hold 16 sets of assembly packaged containers.
2. **Improved Drainage:** Internal drainage design, optimizing the drainage system.
3. **High-Quality Components:** Equipped with double-glazed plastic steel windows and stainless steel fireproof doors, ensuring safety and reliability.
4. **Advanced Materials:** A-grade fireproof, flame-retardant, and heat-insulating wall panels, fully galvanized steel, corrosion-resistant, and rust-resistant.
5. **Custom Sizes:** Sizes can be customized according to specific requirements.
6. **High-Quality Materials:** Fully galvanized steel, corrosion-resistant, and rust-resistant.

Applications

Japanese pro assemble container

Standard pro assemble container

Interior decoration of containers

**Advantages:**

1. **Loading Capacity:** A 40HQ container can hold 7 sets of packaged containers.
2. **Structural Design:** Full-weld design for the top and bottom, completed in the factory, enhancing strength and stability.
3. **Easy Installation:** Each container can be installed by 2 people in one day.
4. **Wind and Earthquake Resistant:** Stable structure, wind resistance up to level 8, earthquake resistance up to level 8.
5. **High-Quality Components:** Equipped with plastic steel double-glazed windows and stainless steel fireproof doors, ensuring safety and reliability.

Applications

Ferrari Container Exhibition Hall

Australian wood veneer container house

Australian container house

French Folding Container House

Wooden grain folding container

African Worker Dormitory Project

Malaysian Worker Dormitory Project

Four-story building project in China

Malaysia folding container

French Folding Container House

Two story folding container dormitory

**Advantages:**

1. **Loading Capacity:** A 40HQ container can hold 12 sets of folding containers.
2. **Cost-Effective:** Low price, high cost-performance ratio.
3. **Quick Installation:** Each container can be quickly installed by one person in 5 minutes.
4. **High-Quality Components:** Galvanized frame and A-grade fireproof, flame-retardant, and heat-insulating wall panels, ensuring safety and reliability.

Applications

Advantages:

1. Loading Capacity: A 40HQ container can hold 12 sets of gable roof houses.
2. Design Advantages: Features a pitched roof design with waterproofing, heat insulation, and thermal insulation. The roof can be designed with glazed tiles or PVC tiles.
3. High Utilization Rate: Can include terrace design, increasing space utilization.
4. Versatile Applications: Suitable for personal residences and independent housing for engineering projects.
5. Advanced Materials: 50mm or 75mm A-grade fireproof, flame-retardant, and heat-insulating wall panels with high-quality door handle locks.

Product details

Advantages:

1. Loading Capacity: A 40HQ container can hold 280 square meters of materials.
2. Cost-Effective: Low price, high cost-performance ratio.
3. Versatile Applications: Suitable for housing, warehouses, offices, and other scenarios.
4. Custom Sizes: Sizes can be customized according to specific requirements.
5. Design Advantages: Features a pitched roof design with heat insulation, waterproofing, and thermal insulation.

Applications

Singapore Activity Housing Project

African activity room project

South African activity room project

Singapore Activity Housing Project

Advantages:

- 1. *Cost-effective: Overall cost much lower than traditional building*
- 2. *Advanced material: Using Enviromental friendly material*
- 3. *DIY: Flexible Customized Design*
- 4. *Convenient: Easy to move and low cost.*

Applications

Exterio decoration board flatpack container

Container layout

Customized container villa

Container store

Container Property Center

Container personal residence

White pitch roof container house

Raised up pitch roof container house

Wooden veneer pitch roof container house

Container Canteen Project

Container sales office project

Container Cafe Project

Advantages

- 1. *Loading Capacity: A 40HQ container can hold 2 finished (completed) corrugated container houses.*
- 2. *Custom Sizes: Sizes can be customized according to specific requirements.*
- 3. *Factory-Finished Delivery: Delivered as factory-finished products, reducing on-site installation time.*
- 4. *Custom Colors: Colors can be customized and painted.*
- 5. *Advanced Materials: 75mm A-grade fireproof, flame-retardant, and heat-insulating wall panels, ensuring safety and reliability.*

COMPANY PROFILE

SUBSIDIARY

Suzhou Zhongnan Intelligent Equipment Co., Ltd. is a manufacturing enterprise specializing in the design and production of special containers and standard containers.

Our subsidiaries cover all aspects of design, production, sales, and after-sales service, providing comprehensive support and service to our customers. With state-of-the-art production equipment and automated production lines, our skilled welding and painting teams deliver exceptional craftsmanship. We offer customized, cost-control design solutions to create greater value for our clients. We focus on customized services for a full range of container products, gaining industry recognition through integrity and strength.

SPECIAL CONTAINERIZED CONTAINER

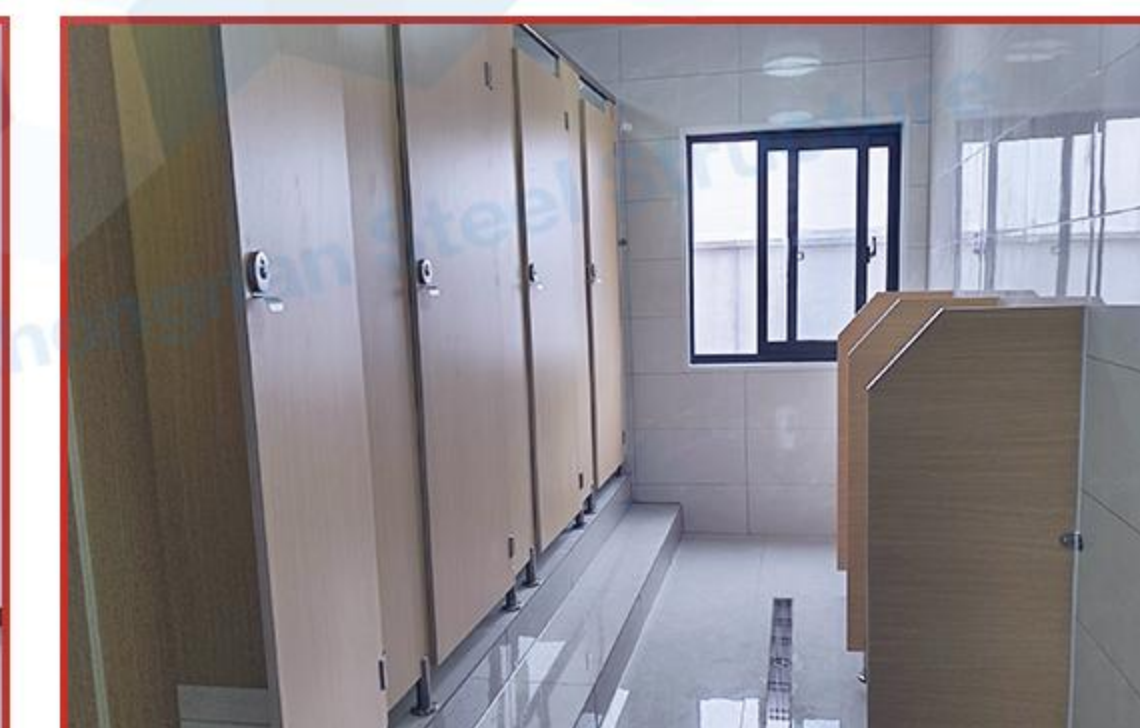

Malaya Container Residential Project

Interior decoration of containers

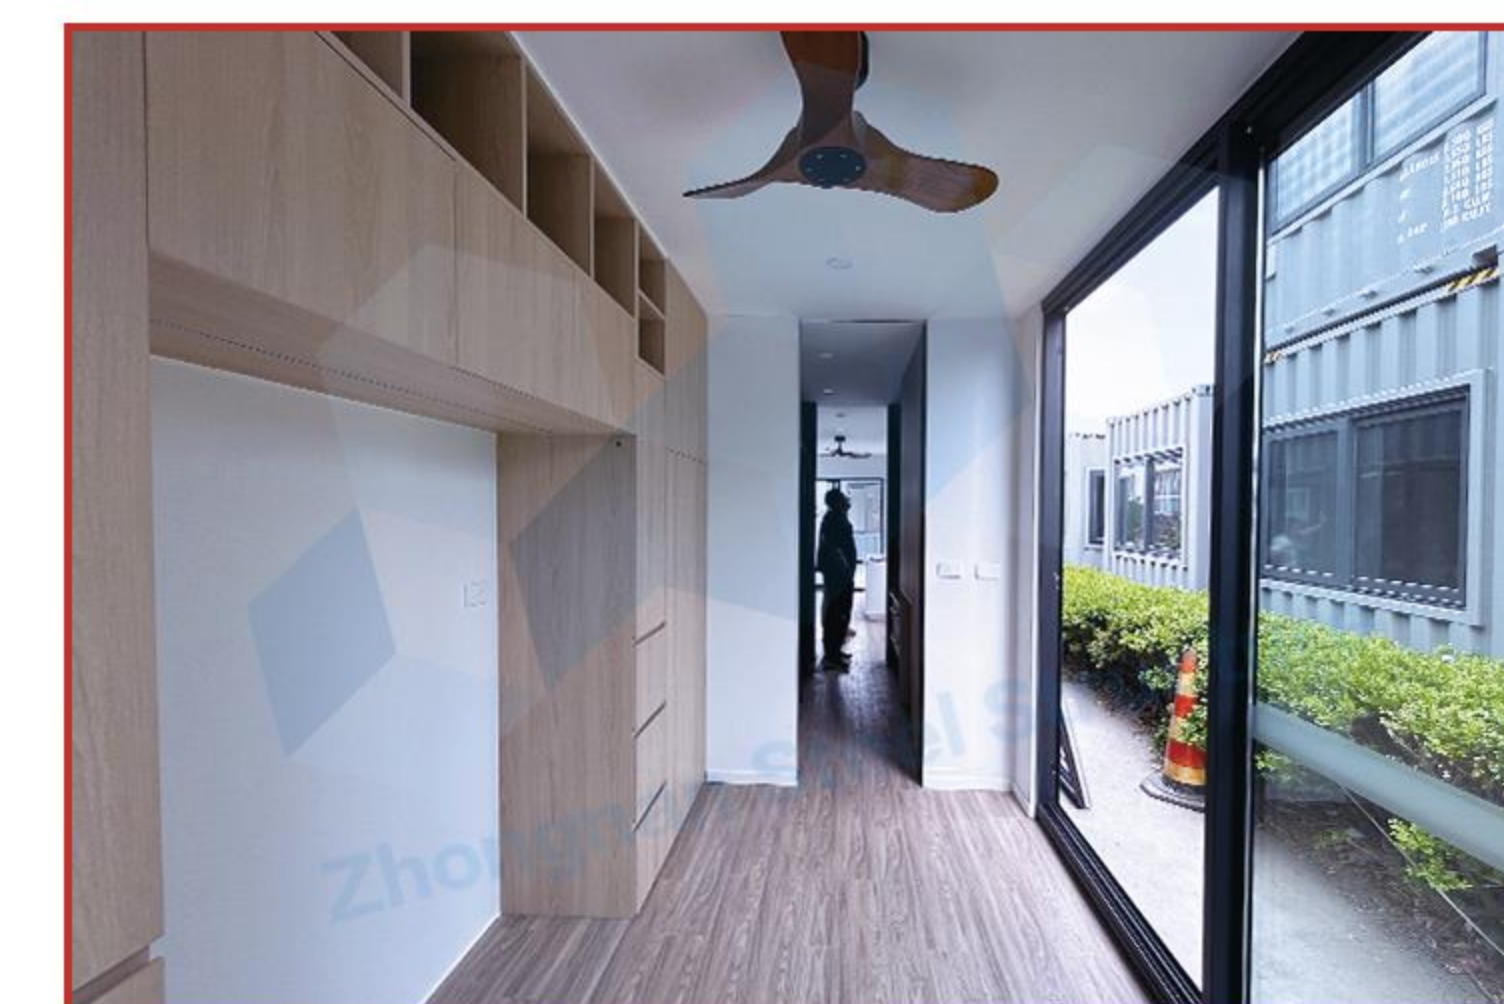

Interior decoration of containers

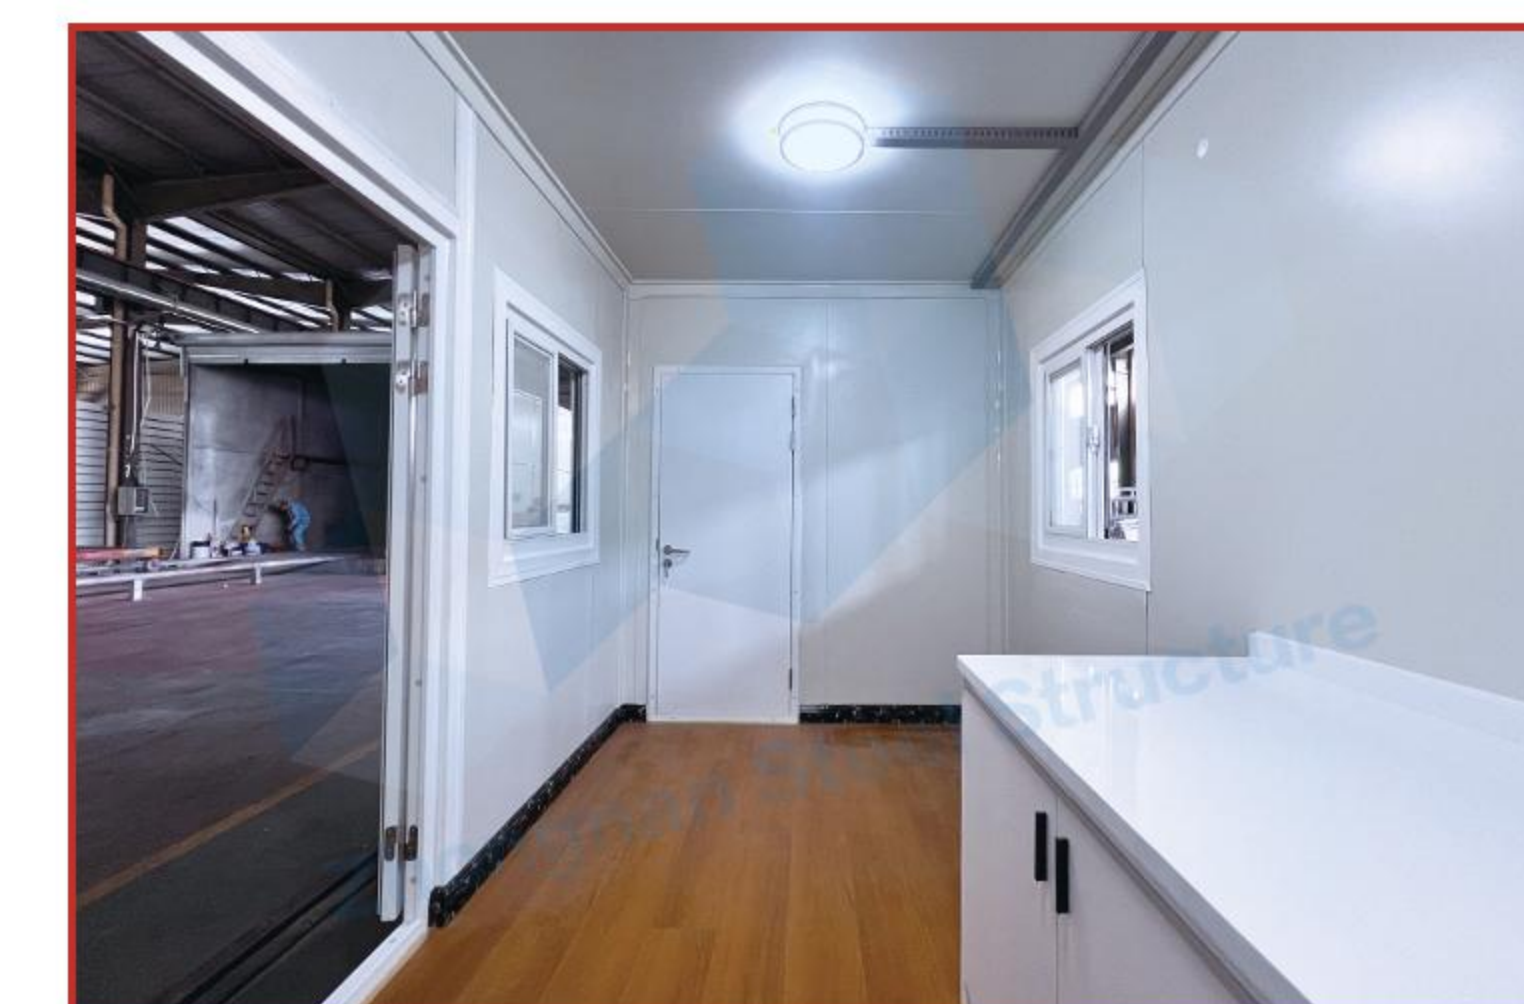

Overview: This project has two floors and consists of 33 rooms. The size of the box on the first floor is 11.8m* 3m* 3.2m, and that on the second floor is 10m* 3m* 3.2m. Among them, the functional areas are divided into offices, reference rooms, conference rooms, restaurants, pantries, bathrooms and public bathrooms.
